Dear Andrew,

Along with my coauthor, I am working on a paper dealing with revenue sharing in the four North American major league sports. My question deals with your understanding of the relative extent of revenue sharing:

Among MLB, NBA, NFL, and NHL, which league has the most extensive revenue sharing?

Among the MLB, NBA, NFL, and NHL, which league has the least extensive revenue sharing?

Thanks in advance for your help on this. Your response will be held in the strictest confidence.

Best regards,

Roger
